    b. Product card
    c. Footer

2. Cart Page

    This page shows the curated list of all the products added by the user to the cart.
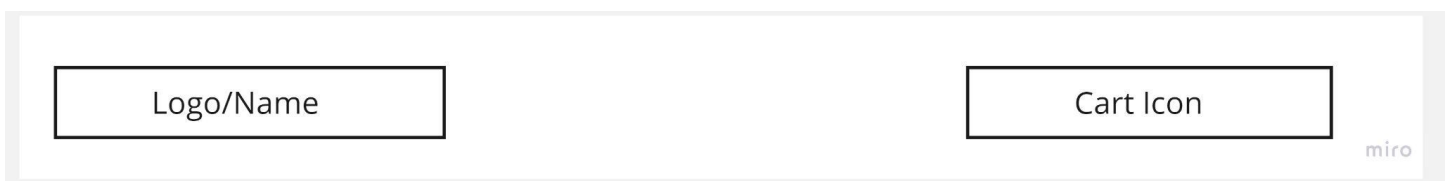

1.2.   Reusable Components

To scale our application, we need to have reusable components across the application. These components can be used in different pages. And multiple times in a single page.
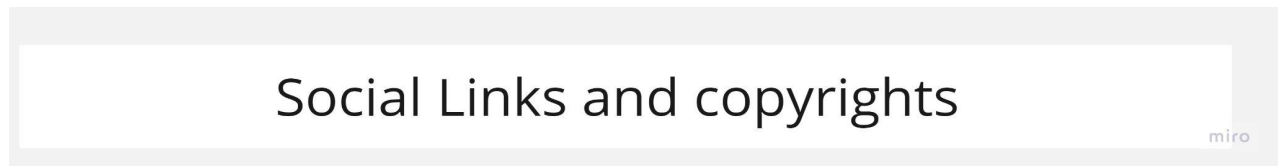

In our application we can have 4 main reusable components: they are as follows.
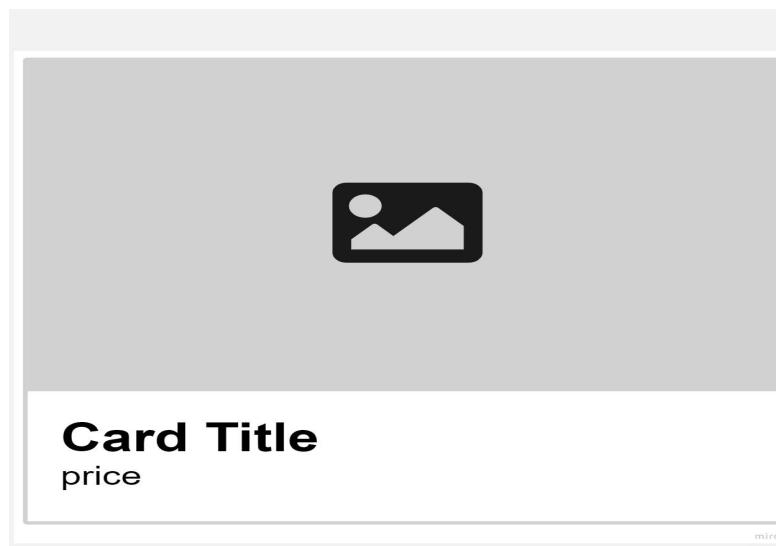

1.2.1. Navbar

Navbar component should be present in both pages so it is good idea to have it has separate Component
